

THE SUGARVEIL FIN

The **Fin** is a specially-designed tool containing four different edges for a variety of sugar craft uses. The notched edge clears a clean border line along the edges of SugarVeil “fabric;” the small rounded end works as a ball tool. The thin, smooth edge allows you to spread selected colors of **SugarVeil Icing** into specific areas on the Confectioners’ Mats (create multiple ribbon colors on the **Celebration Ribbons Mat**, for example). The large rounded hump on the tool’s back serves as a form for shaping both large and small gumpaste or fondant ruffles.

Creating a clean edge for SugarVeil “fabric” on the back of a Confectioners' Mat with the Fin tool.

Create both large and small gumpaste or fondant ruffles perfectly and easily with the Fin tool.
