

STYLISH SUGARVEIL SEERSUCKER

Create seersucker fabric using [SugarVeil Icing](#) and the [SugarVeil Confectionery Comb](#)!

1. Mix SugarVeil Icing as directed. Grease a sheet of parchment paper and place onto the smooth reverse side of any Confectioners' Mat.

2. Using the "Heavy Lines" edge of the Confectionery Comb, comb lines of SugarVeil onto greased parchment.

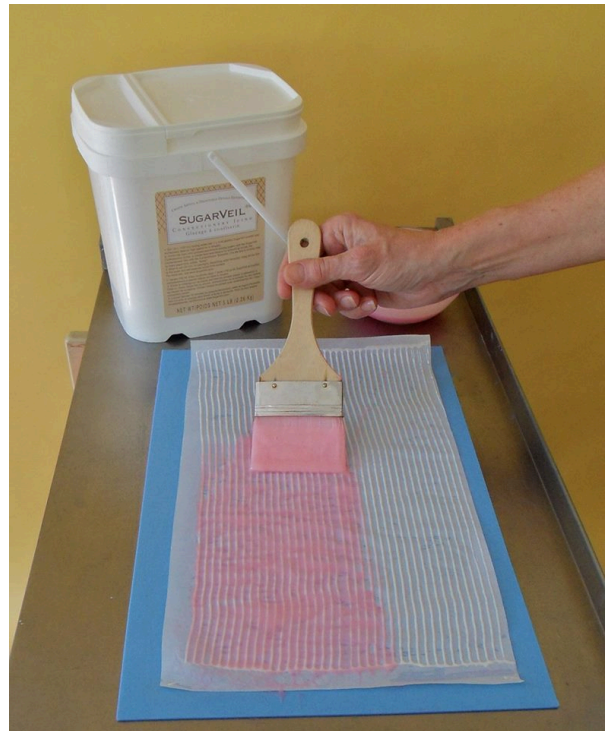

3. Allow combed lines to set.

4. Mix pink food color into SugarVeil Icing, stirring in a teaspoon or so of water to make it a "painting" consistency.

5. Just before painting with the pink [SugarVeil Icing](#), use a wet sponge to dampen the Confectioners' Mat beneath the parchment paper.

6. Paint pink SugarVeil with a soft brush over the set lines of white SugarVeil, and allow to set.

7. Moisture buckles the parchment, and SugarVeil will precisely mold to mimic the texture. When set, lift the fabric to reveal the under-side's seersucker-like effect.

Form the SugarVeil seersucker fabric into ruffles or into a [bow](#).
